

Pledged to neither Side nor Party
But Established for the Benefit of All

WEDNESDAY, AUG. 1, 1894

Ka Leo eoa so gently that it would be like hitting a girl to at tack it.

According to the Advertiser, the BULLETIN is sometimes on the verge of coming out for annexation. It hasn't come yet, though. When the United States is believed, at home and abroad, to be only wanting to have the game without the name of controlling Hawaiian affairs, and when the moneyed power of these islands does not want annexation so long as it can hold reciprocity, there is nothing very promising for the country—which is all the BULLETIN cares for—on the annexation side of the fence just at present. By the way, why is it that the two Government organs are so measly mouthed about annexation themselves these days? The wicked dogs without the camp, that vex the righteous soul of "Reverend" Serezo Bishop, have an idea that the firm of Dole & Co. have too soft a snip to be willing to give up, even for the glorious advantages of connection with the United States of America.

It pleases the Star to assert that the BULLETIN "refuses to enter a direct denial of the facts alleged" in regard to the bribery tale of the Star editor. Now, it is impossible to deny anything that is not directly asserted. If the Star really wants a denial let it come out honestly with names, places and dates in support of its editorial fairy story, and then all those named will have the chance to confirm or deny whatever the Star has the courage to present as the result of its researches into fake journalism. What would the Star say if we were to deny by name that its editor was renowned for his phenomenal excursions into idealistic creations of unreliable news, when so far no one has asserted that he is singularly gifted in that direction? In such a case his assistants would hang their heads in guilty shame while howling in their best tones of voice that the BULLETIN was premature in denying what had not been alleged.

"No Irish need apply," would seem to be the motto of the Government's registration minions—"Irish" in this case meaning all who may be suspected of an indisposition to vote for the family compact. Upon no other theory can their rejection of the two Quinns—alias the "heavenly twins"—be explained. "Jim" is one of the most respectable property owners and taxpayers in the country, who, moreover, was one of the first so-called "royalists" to conclude that the "jig was up." He was not a monarchist on theoretical grounds anyway, but objected to the abrogation of the monarchy because that event was not brought about by the democracy of the country. Then there is "Pete" Quinn, a dyed-in-the-wool republican politician, whose democracy leaned over to a degree that approached the utilization of dynamite as "one of the resources of civilization" in the alleged regime of "bonnie Prince Charlie." He too, has failed to pass the "Foway" board of alien dictators who sit about the board of registers. Perhaps, however, the rejection of the Quinns is because there is only room for one great let in the family circle—the Dole-Hatch King. Damon Smith quipped "what a fall was there, my countrymen," in classic nomenclature, from Dole to Smith, with a King in the middle!

Professor Berger's jubilee anniversary is an event that must appeal strongly to the friendly sympathy of the devotees of music in this community. For more than a score of years Mr. Berger has been the able instructor and leader of the

Government band, but his services in that capacity have not by any means been all that he has done for music in these islands. He has been the accompanist and conductor at every sort of public entertainment, the organist in Kawaiahae native church and the organizer of many a great musical fete. Mr. Berger and "his" band have a fame throughout the world, for their regular serenading of tourists and travelers at steamers and hotels. The Royal Hawaiian band, which was his creation, some years ago made a great hit at San Francisco in the Knights Templar procession. Its merits have been noted in scores of newspaper letters abroad, as well as in many books of travel. In short, "the band" has long since come to be regarded as part of Honolulu. One thing that entitles Mr. Berger peculiarly to suitable recognition on the approaching occasion is his generous disposition, which he has always evinced when there was any musical benefit on the carpet for charitable or friendly purposes. No body has ever solicited professional aid from him in vain, for any worthy object, when his official engagements did not interfere. To the humble as well as the great he has been equally accommodating. For all these considerations it is to be hoped that the community will remember the popular bandmaster kindly on his jubilee anniversary.

LADIES' COLUMN.

The shoe dealers must be doing a good business, judging from the amount of Hosiery we are selling, for nearly all the barefeet in town have taken advantage of our stock and prices, while there is a suspicion that the more extensive buyers intend to lay in a stock for future use—it's all right, we bought them to sell and knew you could not resist the temptation. Saturday, Aug. 4th, we will make another run on Hosiery and will include some for hubby—Fast Black Socks—that he is foolish enough to pay \$3 a dozen for; you can make pin money by buying them of us at \$2 a dozen, and get yourself a supply of Tan Colored Hosiery to match your pretty little tan boots—they will please him as well as yourself; and talking about pleasing, more comfort and smiles have found their birthplace in P. D. Corsets, than wearers of other corsets are aware of. Did you ever try them? If not do so by all means—in the mean-time fit the little one and yourself out with some of the following: Compromise Bodice Waists, Equipise Ladies' Waists, Jeanness Miller Waists, Children's Double Ve Waists in Summer and Winter weights, Children's Lo g Cashmere Coats, these goods will receive an awful cut. Another thing let us say, there is no use fixing yourself up unless you do the home Tusore Draperies for curtains and Divans make a room more cheerful than it would without them—and yet if we were to quote you the price her you will say, "Oh, well, Ehlers is selling them so cheap, everybody will have them," to which we say, Yes, the first come will, for the stock is limited. Double Width Serges, all wool, go at 50 cents a yard this week.

Hawaiian Hardware Co., L'd

Saturday, July 28, 1894

There is a hole out near the government quarry at Kamoiliili containing an inexhaustible supply of pure sparkling fluid, sufficient to meet the demands of all Honolulu. The water has recently been analyzed and shows

Sulphurum	50
App-dinam	30
Lime	07
Magnesia	07
O. P. S.	1

It will be seen at a glance that this is a much higher grade of water than we are now getting from either Nuuanu or Makiki, and we believe the government could take no wiser course than to run pipes from the pool to the city mains only a mile distant. A pumping plant at the spring would force the water in all directions between Kahoili and Waikiki, and the expense would be insignificant compared with the benefits derived by the public.

If this is a charitable government it will be done if for no other reason than to relieve the Superintendent of the Water Works of the severe mental strain caused by his attempt to figure out a way to give the people more water and less earth. An abundance of water might also have an effect upon the rose bugs in so far as it might drown the larvæ which may be found around the roots of the bushes. We are making these suggestions without consulting the owner of the water, but we believe it will meet with his approval, as he is a man with philanthropic motives.

For a consideration we believe he can be approached and an arrangement entered into whereby all water difficulties could be obviated. Some time would, of course, be necessary to complete the plant and means should be devised to supply individuals with what ever water they wish. We have tried everything from a straw to a Corliss Engine in lifting fluids but nothing works better, or can be run with less expense than an Armotor. You just erect the mill and give it a dose of oil occasionally and let her pump. We have small ones that will answer admirably for irrigating lots up to five acres, we have others that will pump ten thousand gallons of water an hour, sufficient to irrigate a rice plantation.

The "Pansy" is king of all iron cook stoves. For good baking and little fuel there is no other like it. We could figure up where we have sold a couple of thousand of these stoves but cannot find a single complaint from our customers. You can get other stoves, lots of them, but what's the use of investing your money in an article you know nothing about. A stove is something you have to live with three hundred and sixty-five days in the year, and it's something you want to be on pretty good terms with. You can't be if it will not bake or if it burns too much coal; if the upper crust on your pie or cake is burnt to a crisp and the lower one under done some one is going to kick and it won't be the stove.

Our stock of cheap lamps mentioned last week is worth looking into. We have opened all of the casks and put some of the goods where they can be seen by the people. When once examined they are as good as gone because they are cheap. In these times when people's imagination drifts toward poverty low priced goods are needed. We have other lamps to suit the masses not afflicted with flattened purses. We have them for both classes here because we cater to the public, irrespective of party, creed or present condition of finances.

Personally Conducted Excursion to the Volcano now being Organized by Frank L. Hoogs.

Leaving on the Next Trip of the S. S. "Kinau," FRIDAY, August 3d, Returning to Port on SATURDAY, August 11th.

There are a great many people in Honolulu who require a vacation in order to get away from business and other cares that infest this work-a-day life. For their benefit it may be mentioned that a Select Excursion is now being organized to visit the domain of Madame Pele, sometimes known as the Volcano of Kilauea. It doesn't make any difference if they have been there before, because if they have, they will readily admit that the crater is constantly changing and with each change renewed interest is awakened. Hon. L. A. Thurston gave a description of the Volcano's latest mood, and if you have not read it do so at once and then walk as far as WILDER'S STEAMSHIP OFFICE and purchase a Ticket for the Excursion leaving here on FRIDAY, August 3d. To people who do not require a vacation they must make the trip anyway if only to say that they have seen the World's Greatest Wonder. It is certainly embarrassing for people who have lived in this country for years to give a negative response when asked if they have seen the Volcano. They may have had some excuse in the past for their seeming indifference because it required more or less exertion to reach the crater, but now they can ride in a carriage to the door of the Volcano House. The crater is very active now, it may not remain so very long, so join the Excursion Party and see a sight that strangers travel thousands of miles to see. The cost of the trip will be FIFTY (\$50) DOLLARS, which includes everything. 1088-71

ORDWAY & PORTER

Leading Furniture Dealers of the Hawaiian Islands.

Robinson Block, between Fort and Nuuanu, right hand side of Hotel street going west.

Direct Importers of Fine Furniture, at cheap for cash. We have on hand
